DEPARTMENT REPORTS:

- ▶ BioPure Superintendent, Paul Cutter:
 - There was recently an illegal discharge of raw sewage last week. Mr. Cutter provided a diagram of how this incident occurred. A relief valve failed at the Griswald Lift Station. Mr. Cutter estimated (high) that 300,000 gallons flowed through at the time of the incident. The event must be reported to MiWaters, Health Department, and the local paper, so that affected parties are made aware of the event. A bleach/water mix was used in the area, and pelletized lime was dispersed to neutralize the area. The sewage did not make it to Chippewa Creek. It should not affect the groundwater as the soils will filter it as it drains down.
 - Blowers have been ordered as well as instruments and piping.
- ▶ Police Chief, Juan Salazar:
 - In the last month, many of the officers attended several training opportunities.

On April 16th and April 17th Officer Anderson, Officer Malotke and I attended a Defensive Driving course in Muskegon County. The training consisted of an On-line portion and a practical; which consisted of four defensive driving exercises. All officers successfully completed the training.

On April 17th, Sgt. Skipski and I attended a Mass Casualty Response Workshop; which consisted of lessons learned from the Orlando and Las Vegas mass casualty incident. We discussed the responses to these two horrific attacks, and what was learned during each critical and stressful event from what was done well, what decision was made, and lessons that were learned from each incident. This was an eye-opening training and was great training to attend.

On April 24th, Lynne, Vicki and I attended a pre-conference of the 4th Annual North American Active Assailant Conference in Troy, MI. The presenters were three distinguished individuals who helped guide their communities through the aftermaths

of some of the most horrific acts of mass violence in recent history. The presenters were the Public Information Officer from Jefferson County (Colorado) Sheriff's Office (Columbine), Former City Manager Aurora, Colorado (Movie Theater), Chief of Police San Bernardino, California. Again, this was an eye-opening training and was great training to attend.

April 22nd to May 3rd, Officer Hintz attended a Fire Investigation School. This program is nationally accredited and is recognized as a leader in fire investigation training. The purpose of the program is to provide investigators with a classroom lecture and hands-on training with topics such as Fire Chemistry and Behavior, Fire Suppression, Electrical Fire Causes, Fatal Fires, Explosions, Arson Motives, and Evidence Collection. Officer Hintz successfully completed the training and will be part of the Oceana County Fire Investigation TEAM.

Monday, May 20th and Tuesday, May 21st, Officer Anderson attended an ARIDE Training (which is Advanced Roadside Impaired Driving Enforcement) at the Norton Shores Police Department. This course is designed to help officers become more proficient at detecting, apprehending, and testing impaired drivers. This is an intermediate level course designed to offer more than a basic understanding of the impairing effects of drugs (Illicit and Licit), alcohol, and/or the combination of both.

Thursday, May 23rd 019, Sgt. Skipski attended and completed a Taser Re-Certification at the Kent County Sheriff's Office. Sgt. Skipski is the department's laser instructor and is required to re-certify every two years.

DPW Superintendent, Brad Whitney:

- Prein & Newhof has been working on designs for the Lincoln Street project.
 - There are two new loaders in the shop for demo purposes for replacement of the current loader whose lease is expiring.
 - Lines are being painted in the street and curbs for the upcoming Asparagus Festival.
 - JGP bathrooms have been renovated and updated with a new drinking fountain installed on the outside of the facility.
 - Warm weather is needed to repair the cracks in the pickleball courts.
 - Ms. Martin asked about the holes that are in State Street. Mr. Whitney advised that the County Road Commission is responsible for those repairs.
 - Mr. Splane asked if natural gas lines could be run to the Historic District when Lincoln Street is being worked on. Mr. Whitney said that had already been discussed with P&N.
- ▶ Energy Superintendent, Mike Schiller:
- Service hookups were done
 - Miss Dig's
 - Overhead line removal at the Dam – poles are next.
 - New Tyler circuit/88th substation is coming into town, 7200 volts on the line, 2400 coming into town. There will be a shutdown tomorrow, consisting of 10 houses and JGP that will be affected.
 - June 6th, the Medical Care Facility will be shut down to the East Main fill area for a couple of hours to do the upgrade. All areas have been notified of the upcoming shutdown.
 - Ms. Platt asked Mr. Whitney if the street could be cleaned up in front of La Fiesta before the festival? He replied that it would be. She also asked about the hole in front of Hegg's; he stated that it would be worked on as well. The barrels on Plum Street will soon be removed.

- Ms. Martin asked that the TIFA minutes not be included in the packets until the minutes have been approved or to have them clearly marked as DRAFT.

Memo

To: Mayor and City Council
 From: Lynne Ladner

 Re: Tax Lien Delinquent Utility Accounts

In recent years the City has certified to the County delinquent utility accounts to the County to be placed as a tax lien on the property. This process allows the City to collect on accounts that are otherwise uncollectable through traditional means. Collection of even a portion of these utility account revenues enables the city to maintain utility rates that are equitable for all users.
